

International Science Forum HELD.

Hikone Higashi International Science Forum was held on March 22nd. On the 1st day, Welcome Party, Opening Ceremony, Keynote Speech, and Research Presentation were done.

The students of Hikone Higashi High School (HHHS), Ashdale Secondary College (ASC), Global Indian International School (GIIS), Kolese Kanisus Senior High School (KKSHS), Perth Modern School (PMS), The First Middle School of Xiangtan (XTYZ) and The Shri Ram School (TSRS) participated into this forum.

▲At the Opening Ceremony, we waved to the world's high school students who participated online.

▼Koto Music Club students played Koto (Japanese harp).

▼Prof. Nagai talked about, "Singularity created by fluorescent/bioluminescent protein technologies."

Students in HHHS, GIIS, KKSHS and TSRS participated into the forum in HHHS this year, while it was held online last year.

In Welcome Party, HHHS students welcomed the students who visited Japan from TAP7 schools. They were given Japanese souvenirs by HHHS.

In Research Presentation, the students were divided into 6 categories, and presented their researches.

Takuto Horiuchi (HHHS 2nd year student) said, "I had a very valuable experience listening to the presentations from various countries. It was very good to be able to present and have a conversation in English."

▲Ginnyan (The official character of HHHS) also participated in the Welcome Party.
